

CLOSED CAPTIONING IN STUDIO

For accessibility purposes, videos that are shared with students should always be captioned. Studio can autogenerate captions for video and audio files that are approximately 85% accurate.

To autogenerate captions, simply navigate to a video or audio file within Studio. You will see the following options:

Select "Captions".
Choose the language that is spoken in the video.

Details Comments Insights **Captions**

Captions Request

Our technology can listen for words in your video and create ~85% accurate captions for this media.

English

After you select the language, select "Request."

Pro Tip: The Studio captioning cannot translate the audio into another language.

Once the captions have been generated, you will be asked to "Review & Publish." From this screen, you can edit the captions. Be sure to click "Publish" when you are done!
